

education **Saturday Science Club** please print this page
registration form

The Museum of Science and Industry’s Saturday Science Club is a club comprised of youth from the Chicago land area in the third through fifth grade that may have an interest in “hands on” science activities. Club members work in groups and pursue selected topics for five weeks. The winter and spring 2007 topics are related to the human body and health. Science Club sessions take place at the Museum of Science and Industry, 57th Street and Lake Shore Drive. There will be two sessions offered. The first session will meet on scheduled Saturdays from February to March, and the second session will meet on scheduled Saturdays from April to June. Space is limited and submitting an application does not guarantee acceptance. Preference is given to early applicants. A waiting list is maintained. Applicants are accepted from the waiting list as space becomes available.

Applicants will be notified of their status: accepted or waiting list. Upon acceptance you will receive specific information about Club sessions.

Please print clearly or type:

Name: _____

Street Address: _____

City, State, Zip: _____

School: _____ Grade: _____ Age: _____

Daytime Phone: (_____) _____

E-Mail: _____

How did you hear about the Science Club:
